When considering how well modern cars perform in many areas, it is easy to forget some of the issues motorists had on a regular basis 40+ years ago. Cars needed maintenance regularly: plugs and points had to be replaced on a frequent basis, the expected engine life was 100,000 miles rather than double and triple the expectation that you see today, and an everyday hassle, especially in warm climates, was being the victim of an overheating car. It was not uncommon on a hot day to see cars stuck in traffic, spewing

coolant onto the ground with the hoods up in a desperate attempt to cool off. Fast-forward to today, and it ' s easy to forget that modern cars even have coolant. The temp needle moves to where it is supposed to be and never moves again until you shut the car off. For drivers of vintage cars, this level of reliability is also attainable. In *High-Performance Automotive Cooling Systems*, author Dr. John Kershaw explains the basics of a cooling system operation, provides an examination of coolant and radiator options, explains how to manage coolant speed through your engine and why it is important, examines how to manage airflow through your radiator, takes a thorough look at cooling fans, and finally uses all

this information in the testing and installation of all these components. Muscle cars and hot rod engines today are pushed to the limit with stroker kits and power adders straining the capabilities of your cooling system to extremes never seen before. Whether you are a fan of modern performance cars or a fan of more modern performance in vintage cars, this book will help you build a robust cooling system to match today ' s horsepower demands and help you keep your cool.

Tales of terror and wonder from a winner of the Nebula, Hugo, Edgar, Bram Stoker, and many other awards. Originally published in 1962 and updated in later decades with a new introduction, Ellison Wonderland contains sixteen masterful stories from the author ' s early career. This collection shows a vibrant young writer with a wide ranging imagination, ferocious creative energy, devastating wit, and an eye for the wonderful and terrifying and tragic. Among the gems are " All the Sounds of Fear, " " The Sky Is Burning, " " The Very Last Day of a Good Woman, " and " In Lonely Lands. " Though they stand tall on their own merits, they

Fourteen-year-old Natalie O'Reilly's world is turned upside down with the news that she will soon go blind. As if this weren't shocking enough, she is forced to face the fact that she must now attend a school for the blind to learn Braille and how to use a cane. As Natalie tackles the skills that will help her to survive in a sighted world, she inwardly hopes for a miracle that will save her sight. But will that miracle come, or will she need to learn to embrace her new life?
