Breastfeeding your new baby. In the beginning it can seem like you're baby is constantly feeding, but gradually you and your baby will get into a pattern and the amount of milk you produce will settle. Feed your baby as often as they want. This is called baby-led feeding. Let your baby decide when they have had enough. Find out more about:

stretches at night too. Some 4 months old can sleep up to 8 hours at a time.

Complete Guide to Baby Milestones at 4 Months Plus ...

You can also buy anti-colic teats that aim to reduce the amount of air your baby takes in while feeding. You can even get disposable teats for single use while out and about. Generally, you should start with slow flow for newborn babies until they get used to bottle-feeding, then switch to a medium flow. Use fast-flow teats once you're confident your baby can suck at the pace required and isn't being overwhelmed with the speed of the milk.
