Originally published in 1996, "Pastimes" introduced an exciting new text that explored leisure and recreation philosophy and science, the various subfields, and the leisure services industry. The purpose of this fifth edition of Pastimes is to extend the discussion about leisure in society to new concepts supported by new research findings and commentary. Throughout, the author has pursued the most interesting, relevant, exciting, and contemporary information possible. First, as an introduction to the phenomenon of leisure,

the book must be current. Momentous changes, actual and alleged, have always been the root of leisure expressions and experiences. To match, Pastimes again reflects a wide range of material from the disciplines of leisure studies, sociology, psychology, economics, political science, anthropology, geography, the humanities, and media and cultural studies. Second, as a learning tool, this fifth edition teaches more. It contains new illustrations of concepts through field-based cases, biographical features, exploratory activities, and research studies. While the basic organisation remains similar, in addition to new material, some former concepts have been relocated. For example, the topic of history and its meanings for leisure is now combined into one chapter. Also, the discussion of work is now combined with that about economics in the same chapter. Also, theories explaining leisure behaviour are now organised according to their home discipline. A chapter on well-being and leisure is a new feature, and because of the amazing speed of change, the chapter on leisure and technology has been completely rewritten. The chapter on time has also been expanded. Finally, the last chapter on leisure systems has a new section on professional preparation. But, more than a textbook, Pastimes is very much a point of view. Leisure is presented as a human phenomenon that is individual and collective, vital and frivolous, historical and

What is leisure? How does leisure relate to leading a good life? This critical and intelligent study interrogates the basic principles of leisure and demonstrates the continuing relevance of these questions for our society today. It not only explores the traditional philosophical concepts at the heart of leisure studies, but also pursues new possibilities for reconceptualising leisure that have emerged from recent developments in society, technology and the broader discipline of philosophy itself. Approaching leisure from a philosophically inquisitive perspective, the book argues that leisure revolves around the pursuit of happiness, human flourishing and well-being, making it both a state of mind and a state of being. Its exploration of the meaning of leisure addresses key issues such as identity, ethics, spirituality, human experience, freedom, technology, embodiment, well-being, the fundamental properties of leisure and the challenge of offering a meaningful definition. Revitalising the subject of leisure studies with its originality, *Philosophy of Leisure: Foundations of the Good Life* is fascinating reading for all students and scholars of leisure studies, philosophy, sociology, psychology and ethics.

industry has seen large scale growth and extensive government support as a result of objectives to enhance and project the image of place and leverage positive sponsorship and regeneration opportunities. As we move deeper into austerity measures prompted by economic recession, community festivals and events as a sacred or profane time of celebration can be considered even more important than ever before. This book for the first time explores the role and importance of 'community', 'culture' and its impact through festivals and events. Split into two distinct sections, the first introduces key themes and concepts, contextualises local traditions and culture, and investigates how festivals and events can act as a catalyst for tourism and create a sense of community. It then questions the social and political nature of festivals and community events through examining their ownership. The second section focuses on communities themselves, seeking to examine and discuss key emerging themes in community event studies such as; the role of diaspora, imagined communities, pride and identity, history, producing and consuming space and place, authenticity, and multi-ethnic communities. Examples are drawn from Portugal, the Dominican Republic, the USA, Malaysia, Malta, Finland and Australia making this book truly international. This significant volume will be valuable reading for students and academics across the fields of Event, Tourism and Hospitality studies as
