This companion volume to Paul and the Faithfulness of God and Paul and His Recent Interpreters brings together N. T. Wright's most important articles on Paul and his letters over the last three decades. The book begins with Wright's auspicious essay of 1978, when as a young, aspiring scholar he gave the annual Tynedale lecture in Cambridge, and proposed, for the first time, "a new perspective" on Pauline theology. The book ends with an expanded version of a paper he gave in Leuven in 2012, when as a seasoned scholar at the height of his powers, he explored the foundational role of Abraham in Romans and Galatians.

Reveals the origins of the Declaration's ideas and phrases, unravels the story of its drafting, and explores the implications of its treatment as a sacred text
Much has been written of late about what the apostle Paul really meant when he spoke of justification by faith, not the works of the law. This short study by Stephen Westerholm carefully examines proposals on the subject by Krister Stendahl, E. P. Sanders, Heikki Raisanen, N. T. Wright, James D. G. Dunn, and Douglas A. Campbell. In doing so, Westerholm notes weaknesses in traditional understandings that have provoked the more recent proposals, but he also points out areas in which the latter fail to do justice to the apostle. Readers of this book will gain not only a better grasp of the ongoing theological debate about justification but also a more nuanced overall understanding of Paul.

When seeking to understand what Paul and his coworkers were trying to accomplish, it is no longer possible to ignore Graeco-Roman cultural, economic, political, and religious beliefs and practices. Nor can one ignore the ways in which colonized and vanquished peoples adopted, developed, subverted, and resisted these things. Therefore, in order to properly contextualize the Pauline faction, the traditional background material related to Paul and politics must be developed in the following ways: Pauline eschatology must be examined in light of apocalyptic resistance movements; Pauline eschatology must be understood in light of the realized eschatology of Roman imperialism; and the ideo-theology of Rome (its four cornerstones of the household unit, cultural constructs of honor and shame, practices of patronage, and traditional Roman religiosity now all reworked within the rapidly spreading imperial cult[s]) must be explored in detail. This is the task of Pauline Eschatology, the second volume of Paul and the Uprising of the Dead. In it, we will witness how Pauline apocalypticism ruptures the eternal now of empire, and this, then, paves our way for the detailed study of Paulinism that follows in volume 3, Pauline Solidarity.

First published in May 1900, the Colored American Magazine provided a pioneering forum for black literary talent previously stifled by lack of encouragement and opportunity. Not only a prolific writer for the journal, Pauline Hopkins also served as one of its powerful editorial forces. This volume of her magazine novels, which appeared serially in the journal between March 1901 and November 1903, reveals Hopkins' commitment to fiction as a vehicle for social change. She weaves important political themes into the narrative formulas of nineteenth-century dime-store novels and story papers, which emphasize suspense, action, complex plotting, multiple and false identities, and the use of disguise. Offering both instruction and entertainment, Hopkins' novels also expose the limitations of popular American narrative forms when telling the stories of black characters.

The name of Pauline Viardot Garcia was well known during her lifetime, but after her death in 1910, she passed into obscurity. She was born in Paris in 1821, the youngest child of the Spanish tenor, Manuel Garcia; her sister was Maria Malibran, and her brother, Manuel Patrizio, was an eminent teacher of singing. The first volume of her biography ranges from 1836 until 1863 and covers the most important years of her operatic career. Several composers wrote for her, including Meyerbeer, for whom she created Fid é s in 'Le Proph é te'; Saint Sa è ns modelled the role of Deilah on her and Brahms composed the Alto Rhapsody, which she premiered in 1870. She encouraged Gounod to write his first opera, 'Sapho', and sang the title role in the premiere at the Paris Op è ra and at Covent Garden. Schumann dedicated his Liederkreis Op.24 to Viardot, and Faur é dedicated several of his songs to her. She launched the career of Jules Massenet, and gave valuable assistance to Sullivan, Bizet, Stanford, Arthur Goring Thomas and several other musicians at the beginning of their careers. Although she was not good looking, she had a fascinating personality and great charm and several men fell in love with her, including Alfred de Musset, Gounod, Maurice Sand, Ary Scheffer, Berlioz, and Ivan Turgenev, who loved her devotedly for forty years, although she was married to Louis Viardot for the whole of that time. She was a linguist, artist, composer and talented pianist who studied with Franz Liszt, as well as being a superb singer and actress. Liszt admired her songs and said that she was the first woman composer of genius. Her talent for friendship was great, and she counted Chopin and George Sand as two of her most intimate friends. From 1863 until 1870, she lived in Baden-Baden where she became a celebrated musical hostess, as well as a fine teacher and composer.This book traces the life and work of one of the most important sopranos of the nineteenth century, Pauline Viardot Garcia. Her influence on figures like Meyerbeer, Turgenev and Liszt alone makes this volume, the first comprehensive biography ever published in English, indispensable to the musicologist with an interest in the nineteenth century.

Pearl Witherington Cornicley, one of the most celebrated female World War II resistance fighters, shares her remarkable story in this firsthand account of her experience as a special agent for the British Special Operations Executive (SOE). Told through a series of reminiscences—from a difficult childhood spent in the shadow of World War I and her family's harrowing escape from France as the Germans approached in 1940 to her recruitment and training as a special agent and the logistics of parachuting into a remote rural area of occupied France and hiding in a wheat field from enemy fire—each chapter also includes helpful opening remarks to provide context and background on the SOE and the French Resistance. With an annotated list of key figures, an appendix of original unedited interview extracts—including Pearl's fiancé Henri's story—and fascinating photographs and documents from Pearl's personal collection, this memoir will captivate World War II buffs of any age.

Arguing that all Pauline interpretation depends significantly on the ways in which readers formulate their own images of the apostle, Margaret M. Mitchell posits that John Chrysostom, the most prolific interpreter of the Pauline epistles in the early church, exemplifies this phenomenon. Mitchell brings together Chrysostom's copious portraits of Paul--of his body, his soul, and his life circumstances--and for the first time analyzes them as complex rhetorical compositions built on well-known conventions of Greco-Roman rhetoric. Two appendices offer a fresh translation of Chrysostom's seven homilies de laudibus sancti Pauli and a catalogue of color plates of artistic representations that graphically represent the author/exegete dynamic this study explores.
