The Saab 96 is an automobile manufactured and marketed by Saab from 1960 to January 1980, replacing the 93. The 96 featured aerodymic two-door bodywork, four passenger seating and at first a two-stroke, three-cylinder engine, later a four-stroke V4. The front end was lengthened for 1965 models, in preparation for a new engine, and the radiator was placed ahead of the engine, rather than above and behind, a leftover from the thermosiphon cooling days.

I was a sole trader dealing in the service and repair of all Saab cars but specialising in the older models (i.e. 95 & 96 V4, 99, 90 and classic 900). These cars are now getting old; the newest V4 is now 40 years old, the newest 99 is nearly 35 and the last classic 900 almost 25. Most of the spares I am selling are second hand so they are as old as the cars!
