An intimate portrait of two pivotal Restoration figures during one of the most dramatic periods of English history Samuel Pepys and John Evelyn are two of the most celebrated English diarists. They were also extraordinary men and close friends. This first full portrait of that friendship transforms our understanding of their times. Pepys was earthy and shrewd, while Evelyn was a genteel aesthete, but both were drawn to intellectual pursuits. Brought together by their work to alleviate the plight of sailors caught up in the Dutch wars, they shared an inexhaustible curiosity for life and for the exotic. Willes explores their mutual interests—diary-keeping, science, travel, and a love of books—and their divergent enthusiasms, Pepys for theater and music, Evelyn for horticulture and garden design. Through the richly documented lives of two remarkable men, Willes revisits the history of London and of England in an age of regicide, revolution, fire, and plague to reveal it also as a time of enthralling possibility.

Samuel Lane, whose life in and around the town of Stratham, New Hampshire, spanned much of the 18th century, was truly a "Renaissance man." Civic, business, and personal concerns fill the pages of the diary he kept for over 60 years. The worries, dilemmas, and day-to-day work Lane detailed provide a compelling view of life in colonial New Hampshire. Together with his business records and family papers, Lane's diaries form an important part of the New Hampshire Historical Society's collections. Basing his narrative on careful study of this rich documentary legacy, historian Jerald E. Brown explores the life, career, and motivations of one man and his family. In a preliminary essay, editor Donna-Belle Garvin introduces Lane's world to the reader. The many illustrations of leatherworking, farming, surveying, buildings, bridges, crops, animals, and gravestones draw readers into the complex world and work that shaped Lane and his family. This fascinating tale is the most complete account now available of the life of a colonial New England artisan and tradesman.

Samuel Pepys is one of the most well-known figures of the seventeenth century as a result of the tremendously detailed, lively diary he kept in the 1660s. This book uses Pepys's diary together with his unpublished papers and other contemporary sources to investigate reading and information exchange in the seventeenth century. In the process, it offers new discoveries about Pepys's life and about social, literary, and political change during a dramatic period ofEnglish history. As well as being of major interest to researchers on seventeenth-century literature and history, it is also designed to be intriguing and useful to undergraduates taking early modernliterature and history modules, and to members of the public with an interest in learning more about Pepys and his time.

Growing more and more curious about the mother she never knew, Loo begins to investigate. Soon, everywhere she turns, she encounters the mysteries of her parents ' lives before she was born. Samuel Gerard is just your average teen: he hangs out at the bike jumps or at the mall with his friends, finds creative ways to avoid schoolwork, and repeatedly asks his parents questions that he knows have no answer. But when his dad leaves on a quest to ' save the world,' Samuel's life takes a turn — a big turn. Starting the day after his father leaves, Samuel finds himself on a dizzying, often humorous series of adventures, from being covered in leeches to accidentally blowing up his friend's garage, from cheering up his mom to supervising his feisty grandma, from making out with the most popular girl in school to a life-changing fight with school bullies. As Samuel tries to sort out the world around him, he gradually finds himself at crossroads of religion and community, family and friends, newfound love and deep-seated hatred, all of which threatens to pull apart his neighborhood — and his family. And in the end, when violence in the community comes to a frightening peak, Samuel is faced with a tough choice: let things continue on a dangerous path, or make a personal sacrifice for peace?

During World War II Samuel (Mietek) Gruber was one of the Jews in Europe who actively fought against the Nazi overlords. Serving in the Polish army at the outbreak of the war, he was taken prisoner by the Germans and interned near the Lublin ghetto. With a handful of other Jewish prisoners of war, he organized an escape and took it to the woods, where he helped organize a unit of Jewish partisan fighters. The former town and city dwellers candidly admit that, initially, life as fugitives in the woods held terrors they had not known even in the Nazi prison camp. The screams of small animals in the night, the unearthly shriek that turns out to be only the scraping of a loose branch against a tree trunk, leave them frankly quaking with fear. But within months Gruber and his ragtag band of fellow prisoners, some of them barely past adolescence, mature into a well-disciplined unit of freedom fighters. They engage in daring exploits, including sabotage operations against German military transports and clashes with units of the regular German army. Living with the death every day gives the partisans the courage to attempt the impossible.

Writer Tracy Nelson Maurer and illustrator El Primo Ramón present a lively picture book biography of Samuel Morse that highlights how he revolutionized modern technology. Back in the 1800s, information traveled slowly. Who would dream of instant messages? Samuel Morse, that ' s who! Who traveled to France, where the famous telegraph towers relayed 10,000 possible codes for messages depending on the signal arm positions—only if the weather was clear? Who imagined a system that would use electric pulses to instantly carry coded messages between two machines, rain or shine? Long before the first telephone, who changed communication forever? Samuel Morse, that ' s who! This dynamic and substantive biography celebrates an early technology pioneer.
