7. Professional practice life expectancy and value. A professional practice may have a shorter expected life span than other service businesses. This affects how you do income projections for the practice. And the income projections form the basis of such business valuation methods as Discounted Cash Flow. Importantly, the assumption of perpetual income stream may not be appropriate when valuing a professional practice. This reduces the practice's residual value.

“Practising in a professional manner requires that individuals have skills, knowledge, values and attitudes appropriate to their role and responsibility within the setting. In addition, it requires regular reflection upon practice and engagement in supported, ongoing professional development.” (Siolta, 2006)

### *Professional Practice in the Early Years*

Our values and behaviours will shape our culture, influencing the work we do and how we do it. Our values are important to us. They guide the way we behave, individually and together, and give us a firm foundation to promote excellence in nursing and midwifery for the benefit of the public. We've aligned these to our strategic aims.
